National coronavirus response: A road map to reopening
Morgan Stanley’s Return to Work Timeline

Actual/Estimated New Case Count (United States, Non-Cumulative)
This overview of crisis management from Harvard's Kennedy School is a good way to frame how we should be "bucketing" the phase of our response to this event from a crisis management perspective.
Manage and Respond to COVID-19 (Fusion software Pandemic Toolkit resource page that they have launched free to the public)

The Coronavirus (COVID-19) outbreak continues to evolve rapidly and it’s important for you to stay up to date. The goal of the Pandemic Toolkit – Powered by Fusion is to provide a resource for organizational resilience around COVID-19 as well as insights into pandemic best practices. We will continue to keep this site, which is built on Fusion Framework System and Community Connector, updated on a regular basis with the latest information available.

This toolkit includes:

- Dynamic map of the pandemic and status updates
- Downloadable general pandemic plan template with a basic checklist
- Example communication templates and work from home tips
- Links to trusted resources with verified information as well as thought-leadership information around the pandemic and best practices
- Open community forum available to all for topic discussion, including features to ask the expert, poll your peers, share insights, and more
